

Lumina

Eva

Oberfläche

- latón
- negro

Technical details

País de origen	 Italia
Fabricante	Lumina
Diseñador	Foster+Partners
año	2016
Índice de protección / Protección IP	IP20
Contenido del paquete	LED
entrada de tensión	110 - 240 Volt
Diámetro en cm	18
material	aluminio, vidrio
Atenuación	Dimmer a pie
Potencia en vatios	18 W
LED	incluyendo
Índice de reproducción cromática	97
El flujo luminoso en lm	1.450
Temperatura de color en grados Kelvin	2.700 extra blanco cálido
distribución de la luz	indirectamente
Dimensions	H 30 cm Ø 18 cm

Descripción

The Lumina Eva table lamp spreads indirect, soft and warm light. The light acts like a candle flame. A dimmer is integrated in the lamp base. The grooved ring located at the base of the lamp can be rotated up to 90 degrees to dim the light. At 0 degrees, the table light is set to standby, while turning it clockwise up to 90 degrees produces the 100% light intensity.

Foster + Partners created this lamp 2016. The standard version has an LED with 2,700 Kelvin colour temperature and is on request also available with 3,000 Kelvin. These surfaces are available for the lamp base: brass and black. All offered surfaces are anodized, i. the material is provided with a special surface treatment with an oxidic protective layer. The lamp consists of a glass cylinder with a round light base made of aluminum, in which the LED is integrated. The light is directed upwards indirectly onto a conical reflector. If you like to order this article, please specify the Kelvin colour temperature of the lamp under the item Order Review in the field Order Comment.
