

Luceplan

Fortebraccio Table and Wall Switch

Oberfläche

- metal
- negro
- blanco

Version

- luz empotrada
- Tabla abrazadera
- montaje en pared

Technical details

País de la Fabricación	 Italia
fabricante	Luceplan
diseñador	Alberto Meda, Paolo Rizzatto
año	1998
protección	IP20
Volumen de suministro	Leuchtmittel/Bulb
entrada de tensión	110 - 240 Volt
material	acero, policarbonato
base/portálámparas	E27
conmutabilidad	en cabezal de lámpara
Alimentación (máx. Watt)	70 Watt
Diamètre de l'ombre	16 cm
longitud del brazo	44 + 36 cm
distribución de la luz	directamente

Descripción

The Luceplan Fortebraccio Table and Wall with switch is available in different versions: with a wall mounting, as a recessed lamp for the table or with a clamp. The lamp with wall mounting is equipped with a universal joint, with which the light can also be used as a surface-mounted lamp for the table. Even on oblique surfaces, it can be installed in this way. The recessed light is mounted into the table with a fixing pin, while the clamp light can be attached to a table or a shelf and can be reattached at any time.

In addition to this version, the Fortebraccio is also available as table lamp with table base (Fortebraccio Table). The Fortebraccio table and wall light is flexible because its two arms can be rotated and adjusted independently of each other with the central joint. One arm is 44 cm long, the other arm has a length of 35.5 cm. The light can be directed freely by the handle on the head. An on / off switch is also installed on the lamp head. The table and wall light is available in the surfaces white, black soft touch and metal. The universal joint, the clamp as well as the fixing pin for the recessed light are always metallic. The designer duo Meda & Rizzatto created the Fortebraccio Tavolo Parete 1998.
