Descripción

This Ingo Maurer Blow Me Up is connected via a power plug and it is a flexibly applicable light. It can be hung on the wall or leaned against it. It can also be placed on the floor or on a shelf. This floor and wall lamp has a length of 120 cm and is silver on one side and white on the other. The lamp incorporates an LED that illuminates the reflective side. In this way the lamp emits its light indirectly. On one side of the lamp a sensor switch is integrated with which the Blow Me Up by Ingo Maurer can be switched on and off as well as dimmed by gesture control. An LED with 20 watt output and a colour temperature of 3,000 Kelvin is integrated. In addition to this wall and floor lamp, the lamp is also available with a length of 180 cm. Apart from this, also a version is offered that can be connected via a canopy as a pendant lamp.
