

Holtkötter

Supernova PW

Oberfläche

- aluminio
- latón
- platino
- negro

Technical details

País de origen	 Alemania
Fabricante	Holtkötter
Diseñador	Holtkötter
año	2019
Temperatura de color en kelvin	2.200 - 2.900
Índice de protección / Protección IP	IP20
Contenido del paquete	LED
entrada de tensión	230 - 240 Volt
material	metal
Ajuste de altura	altura ajustable
Atenuación	Toque atenuadores en la luminaria
LED	incluyendo
Indice de reproduccion cromatica	>90
Dimensiones del dosel	38 cm
cabeza del alumbrado masa	42 cm
reemplazo de la bombilla:	en el fabricante / en la fabrica
El rendimiento del sistema	1 x 29 + 1 x 31 Watt
Flujo total luminoso en lm	8.750
distribución de la luz	directamente
altura total	45 - 160 cm

Descripción

The Holtkötter Supernova PW is a flexibly adjustable pendant lamp. It consists of an outer ring and an inner disc, which can be adjusted differently. The outer ring emits its light downwards, but can also be adjusted at an angle. The inner disc can be rotated almost 360 degrees independently of the ring and can therefore distribute its light downwards, upwards or sideways. The LEDs of the ring and disc are separately switchable and infinitely dimmable. The two push button dimmers are integrated on the ring. When dimming, the light colour of the integrated LEDs changes to a warmer tone (from 2,900 Kelvin warm white to 2,200 Kelvin extra warm white) thanks to Dim-to-warm technology. If necessary, the LEDs can be replaced by the manufacturer.

The total height of the Supernova PW is adjustable by simply pushing upwards and pulling downwards from 45 cm to 160 cm. Installation on a sloping roof is also possible. Thanks to a roll-up mechanism, the excess cable disappears into the canopy and the lamp always remains horizontal at the desired height. Special lengths for the light are also available on request. The pendant lamp is offered in matt aluminum, anodised brass, platinum and black.
