

Knapstein

SVEA-80

Technical details

País de la Fabricación	 Alemania
fabricante	Knapstein
diseñador	Knapstein
protección	IP20
Volumen de suministro	LED
entrada de tensión	230 - 240 Volt
Diámetro en cm	80
material	metal
superficie	níquel
ajuste de altura	altura determinada
Atenuación	control por movimientos
Potencia en vatios	68 W
LED	incluyendo
Indice de reproduccion cromatica	>90
El flujo luminoso en lm	6.922
Temperatura de color en grados Kelvin	2.700 extra blanco cálido
Dimensiones del dosel	24 cm
reemplazo de la bombilla:	en el fabricante / en la fabrica
altura total	30 - 235 cm
Dimensions	H 3,4 cm Ø 80 cm

Descripción

The Knapstein SVEA-80 pendant lamp has a diameter of 80 cm. The ring-shaped lamp emits its light simultaneously upwards and downwards. Its uplight and downlight can be switched separately and infinitely dimmed via gesture control. The sensor area for gesture control is located on the top and bottom of the lamp. The light is switched on and off with a wiping hand movement in the sensor area. In order for the lamp to be dimmed continuously, the hand is held in the sensor area for a longer period of time.

The surface of the SVEA-80 pendant lamp is matt nickel-plated. The pendant lamp by Knapstein is height-determinable in total height between 30 cm and 235 cm with the stop sleeves on the underside of the ceiling canopy. By pushing in the stop sleeves, the cables can be pushed or pulled into the desired position. The lamp is available with a diameter of 40 cm or 60 cm. The series also includes the SVEA-L40 and the SVEA-L60 with infinitely variable height adjustment by pulling or lifting the lamp. On request, the SVEA is also available in other lengths or finishes.
