## Descripción

The Holtkötter Aura P2 pendant lamp consists of two lamps mounted on a rectangular canopy. This lamp has two metal reflectors. The reflectors are available in the colours brass anodised, black, platinum and aluminum matt. In addition, the pendant lamp is offered in brass anodised, black, platinum and matt aluminum. The canopy is supplied in the matching finish.

The two pendulums of the Aura P2 can be individually adjusted in their total height up to a maximum of 160 cm. The height is adjusted by simply pushing upwards or pulling downwards a pendulum. With an integrated roll-up mechanism, the cables disappear into the canopy and the lamps always remain at the desired height.

The Aura P2 from Holtkötter can be dimmed on site using a trailing edge phase dimmer. Thanks to the Dim-to-warm technology used, the light colour of the integrated LEDs changes to a warmer tone when dimming (from 2,900 Kelvin warm white to 1,800 Kelvin extra warm white). A memory function saves the last light intensity setting and automatically sets it the next time the light is switched on. The series also includes the Aura P2 glass with two hand-blown glasses. Pendant lamps with three lamps on one canopy are also available.
