Descripción

The SLV Out-Beam Frame outdoor lamp is made of aluminium and emits its warm white light through a narrow light strip. This rectangular LED wall and ceiling lamp with an output of 3.5 watts is 17.3 cm long, 8.5 cm wide and 6.7 cm high. The lamp is available in the surfaces anthracite and white and is suitable, among other things, for the illumination of windows, door frames and passages of any kind. Thanks to its compact design, this LED outdoor light is hardly noticeable in daylight in window and door frames. With IP55 protection, the Out-Beam Frame by SLV is ideal as an outdoor lamp, as it is protected against dust penetration and against water jets from any angle.
