

LDM

Drop Uno Surface-mounted

Oberfläche

- aluminio mate
- aluminio pulido
- negro
- bronce
- blanco

Dimmbarkeit

- DALI regulable
- Regulable en el sitio con control de fase inversa
- con módulo Casambi

Technical details

País de la Fabricación	 Alemania
fabricante	LDM
diseñador	Jürgen Glauner
protección	IP20
Volumen de suministro	LED
entrada de tensión	230 - 240 Volt
Diámetro en cm	7
material	aluminio
longitud del cable	200 cm
ajuste de altura	altura determinada
Potencia en vatios	8,75 W
LED	incluyendo
Indice de reproduccion cromatica	>95
El flujo luminoso en lm	781
Temperatura de color en grados Kelvin	Dim to warm
Dimensiones del dosel	10 cm
reemplazo de la bombilla:	en el fabricante / en la fabrica
Dimensions	H 16 cm Ø 7 cm

Descripción

The LDM Drop Uno Surface-mounted is a height-determinable pendant lamp with a lamp shade made of aluminum. Its light is distributed focused and homogeneously downwards through a frosted optical lens. The lamp is offered in the surfaces aluminum polished, aluminum matt, bronze, white and black. The cable of the lamp has a maximum length of 200 cm and can be shortened if necessary. Special lengths for the cable and various cable colours are also available on request. As standard, the lamp in matt aluminum, white and black is supplied with a white cable, the lamp in polished aluminum with a cable in anthracite and the lamp in bronze with a cable in copper.

The pendant lamp is offered in three versions: dimmable on site with a trailing edge phase dimmer, DALI dimmable or with integrated Casambi module. The DALI version requires a 5-core mains cable. With a Casambi module, the lamp can be operated via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the possibility of regulating several suitable lamps in groups.

When dimming the Drop Uno surface-mounted lamp, the light colour of the integrated LED changes to a warmer tone (from 3,000 Kelvin warm white to 1,800 Kelvin extra warm white) due to the used Dim-to-warm technology. This pendant lamp is suspended from a ceiling canopy made of aluminum, which has the same surface as the selected lamp. The canopy has a diameter of 9.8 cm and is 4.6 cm high. On request, the Drop lamp is also available as a recessed lamp or with a decentralised suspension that can be mounted independently of the power connection. From the Drop series, LDM also offers multiple pendant lamps with two (on request), three or four lights as well as the height-adjustable Drop Move.
