Steng

Long Brigg 1 Pro

Oberfläche

- aluminio
- blanco

Dimmbarkeit

- dimmable con control de fase inversa y con reguladores de control de fase
- con módulo Casambi

Farbtemperatur in Kelvin

- 2.700 extra blanco cálido
- 3.000 blanco cálido

Technical details

País de la Fabricación	Alemania
fabricante	Steng
diseñador	Peter Steng
diseñador 2	Andreas Steng
protección	IP20
Volumen de suministro	LED
entrada de tensión	230 - 240 Volt
Profundidad en cm	20
material	aluminio
Potencia en vatios	34 W
LED	incluyendo
Indice de reproduccion cromatica	>90
El flujo luminoso en lm	5.076
Dimensions	H 6 cm | B 30 cm

Descripción

The Steng Long Brigg 1 Pro wall lamp is 30 cm wide and 6 cm high. It has a depth of 20 cm. The lamp emits its light asymmetrically upwards and thus also into the room. Part of the light is emitted onto the wall behind the lamp and reflected from there into the room. The high-quality reflector technology enables glare-free light emission.

The Long Brigg 1 Pro is available in the surfaces aluminum and white matt. All surfaces have a fine structure. Other RAL colours are also available on request. The integrated LED has an output of 34 watts and very good colour rendering with a high colour rendering index of Ra >90.

The wall lamp is offered in two versions: dimmable on site with a trailing edge and / or leading edge phase dimmer or with an integrated Casambi module. With a Casambi module, the lamp can be operated by smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching and dimming several suitable lamps in groups separately from each other or switching the lamp at specific times via a timer. On request, the lamp is also available with 1-10 volt and DALI dimmable.

The Long Brigg 1 Pro is available with a colour temperature of 2,700 Kelvin extra warm white or 3,000 Kelvin warm white. Steng also offers the wall lamp with Tunable White technology on request. With Tunable White technology, the light can be adjusted in colour temperature from warm incandescent to cool white (from 2,700 Kelvin extra warm white to 6,500 Kelvin cool white).
