### Descripción

The Bover Garota P/02 Outdoor LED floor lamp is also suitable as an outdoor lamp with IP66 protection. It emits its light directly downwards and through the wickerwork to the sides. Its lamp shade has a diameter of 72 cm and is offered in the colours ivory white and brown. The lamp with white shade comes with a lamp base in white, the lamp with brown shade comes with a base in graphite brown. The metal surfaces and the lamp base made of stainless steel are provided with an epoxy-polyester lacquer and are therefore weather-resistant.

The Bover Garota P/02 Outdoor LED is operated with a power-efficient LED that has a colour temperature of 2,700 Kelvin extra warm white. The floor lamp is available as non-dimmable or dimmable with a trailing edge phase dimmer. The non-dimmable floor lamp is connected via a 369 cm long black cable with plug. The dimmable lamp is connected via a connection box and can be fixed to the ground using the accessories supplied. This lamp, which is also suitable for outdoor use, can be fixed to concrete, hollow concrete, lightweight concrete, brick, hollow brick and natural stone.
