Knapstein

LISA-D

Oberfläche

- níquel
- negro
- bronce

Technical details

País de la Fabricación	🇩🇪 Alemania
fabricante	Knapstein
diseñador	Knapstein
año	2022
protección	IP20
Volumen de suministro	LED
entrada de tensión	230 - 240 Volt
Diámetro en cm	60
material	metal
ajuste de altura	altura determinada
Atenuación	con control remoto
Potencia en vatios	72 W
LED	incluyendo
Indice de reproduccion cromatica	>90
El flujo luminoso en lm	7.850
Temperatura de color en grados Kelvin	2200 - 3000 ajustable
Dimensiones del dosel	35 cm
reemplazo de la bombilla:	en el fabricante / en la fabrica
altura total	20 - 60 cm
Dimensions	H 2,8 cm | Ø 60 cm

Descripción

The Knapstein LISA-D is a ring-shaped pendant lamp with a diameter of 60 cm and is suspended from three thin wire ropes. The light is emitted by the lamp simultaneously upwards and downwards. The uplight and the downlight can be switched separately and dimmed continuously with a remote control included. The remote control can also be used to adjust the light colour for the uplight and downlight to a warmer tone (between the colour temperature of 3,000 Kelvin warm white and 2,200 Kelvin extra warm white). Via the remote control, there is also the option of parallel dimming of the uplight and the downlight. All dimming and light colour settings are saved via memory function and automatically set again the next time the light is switched on.

The remote control, which can be recharged via a USB-C port, has a wall bracket with which it can be magnetically attached to the wall.

The total height of the LISA-D can be set once between 20 cm and 60 cm. For final height setting, all stop sleeves on the underside of the ceiling canopy are pressed in, after which the wire ropes can be pushed or pulled to the desired height. The LISA-D is available in matt nickel, black and bronze effect finishes.
