

Knapstein

MEGGI

Oberfläche

- níquel
- bronce

Technical details

País de origen	 Alemania
Fabricante	Knapstein
año	2024
Profundidad	7
diámetro	30
Materiales	Acryl, Metall
Regulación de intensidad	control por movimientos
Potencia en vatios	17 W
LED #	inclusive
Índice de reproducción cromática (CRI / Ra)	>90
Flujo luminoso en lm	1904
Temperatura de color en kelvin	2.200 - 3.500
Índice de protección / Protección IP	IP20
Contenido del paquete	LED
entrada de tensión	230 - 240 Volt
reemplazo de la bombilla:	en el fabricante / en la fabrica
Dimensions	Ø 30 cm

Descripción

The Knapstein MEGGI is equipped with a sensor dimmer that can be used to switch the lamp, dim it continuously and change the light colour. This sensor is located in the front part of the reflector. Simply swipe the sensor to switch the lamp on or off. The light colour of the lamp can be adjusted to a warmer tone (from a colour temperature of 3,500 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved using the memory function and automatically reset the next time the light is switched on. The tilt and turn joint on the reflector allows the light to be aligned and positioned as required. The Knapstein MEGGI emits indirect light, has a diameter of 30 cm and is 7 cm deep. The rotatable and tiltable reflector of this wall light has a diameter of 15 cm. The Knapstein MEGGI is available in several surfaces.
