### Struktur #

- Níquel
- negro
- bronce
- sand

## Technical details

<b>País de origen</b>	 Alemania
<b>Fabricante</b>	Knapstein
<b>año</b>	2024
<b>Profundidad</b>	8,5
<b>diámetro</b>	40
<b>Materiales</b>	Acryl, Metall
<b>Regulación de intensidad</b>	Casambi
<b>Potencia en vatios</b>	39 W
<b>LED #</b>	inclusive
<b>Índice de reproducción cromática (CRI / Ra)</b>	>90
<b>Flujo luminoso en lm</b>	3654
<b>Temperatura de color en kelvin</b>	2.200-3.000
<b>Índice de protección / Protección IP</b>	IP20
<b>Contenido del paquete</b>	LED
<b>entrada de tensión</b>	230 - 240 Volt
<b>reemplazo de la bombilla:</b>	en el fabricante / en la fabrica
<b>Dimensions</b>	Ø 40 cm

## Descripción

The Knapstein ASTRA-C-40 has a curved metal cover with freely combinable outer structures. This metal cover is placed on a magnet attached to the mounting plate. By turning the cover on the magnet, the distance between the cover and the wall or ceiling can be changed by up to approx. 35 mm at any time, making it easy to customise the light outlet. The LED lamp offers virtually loss-free and glare-free light emission and allows flexible brightness control. Equipped with the Casambi system, the Astra-C-40 enables flexible lighting control. The lamp can be switched on and off, dimmed continuously and the light colour (Knapstein dynamic white) adjusted from a colour temperature of 3,000 Kelvin warm white to 2,200 Kelvin extra warm white as required using a smartphone or tablet. All dimming and light colour settings are saved using the memory function and automatically reset the next time the light is switched on. The Knapstein ASTRA-C-40 emits indirect light, has a diameter of 40 cm and is 8.5 cm deep. This lamp can be mounted on the wall or ceiling. It is also possible to connect several ASTRA lamps together if an overlap is desired. The Knapstein ASTRA-C-40 is available in several surfaces and freely combinable external structures.
