

Holtkötter

Supernova P

Oberfläche

- aluminio
- latón
- platino
- negro

Technical details

País de origen	 Alemania
Fabricante	Holtkötter
Diseñador	Holtkötter
año	2019
Potencia en vatios	1 x 31 + 1 x 33 W
Índice de reproducción cromática (CRI / Ra)	>90
Flujo luminoso en lm	7250
Temperatura de color en kelvin	2.700 - 3.100
Índice de protección / Protección IP	IP20
Contenido del paquete	LED
entrada de tensión	230 - 240 Volt
material	metal
Ajuste de altura	altura ajustable
Atenuación	Toque atenuadores en la luminaria
LED	incluyendo
Dimensiones del dosel	38 cm
cabeza del alumbrado masa	42 cm
reemplazo de la bombilla:	en el sitio mismo
altura total	45 - 160 cm

Descripción

The Holtkötter Supernova P is a flexibly adjustable pendant light. It consists of an outer ring and an inner disc that can be adjusted in different ways. The outer ring emits its light downwards, but can also be set at an angle. The inner disc can be rotated through almost 360 degrees independently of the ring and can therefore distribute its light downwards, upwards or to the side. The LEDs on the ring and disc can be switched separately and dimmed continuously. The two touch dimmers are integrated on the ring. When dimmed, the light colour of the integrated LEDs changes to a warmer tone (from 3,100 Kelvin warm white to 2,700 Kelvin extra warm white) thanks to dim-to-warm technology. If necessary, the LEDs can be replaced by the manufacturer.

The overall height of the Supernova P from German manufacturer Holtkötter can be adjusted from 45 cm to 160 cm by simply pushing it up and pulling it down. It can also be mounted on a sloping roof. Thanks to a roll-up mechanism, excess cable disappears into the canopy and the lamp always remains horizontal at the desired height. Special lengths for the lamp are also available on request. The pendant light is available in matt aluminium, anodised brass, platinum and black.
