

# Holtkoetter

## Supernova GT

### Oberfläche

- aluminio
- latón
- platino
- negro
- blanco

### Technical details

<b>País de origen</b>	 Alemania
<b>Fabricante</b>	Holtkoetter
<b>Diseñador</b>	Holtkötter
<b>año</b>	2023
<b>Saliencia</b>	56,5
<b>Materiales</b>	Aluminium
<b>ajuste de altura</b>	regulable en altura
<b>Potencia en vatios</b>	16 W
<b>LED #</b>	inclusive
<b>Índice de reproducción cromática (CRI / Ra)</b>	>90
<b>Flujo luminoso en lm</b>	2500
<b>Temperatura de color en kelvin</b>	2.200 - 2.850
<b>Índice de protección / Protección IP</b>	IP20
<b>Contenido del paquete</b>	LED
<b>entrada de tensión</b>	230 - 240 Volt
<b>Atenuación</b>	Toque atenuadores en la base de la lampara
<b>Dimensiones del soporte de la lámpara</b>	18 cm
<b>cabeza del alumbrado masa</b>	18 cm
<b>reemplazo de la bombilla:</b>	en el sitio mismo

### Descripción

With 2500 lumens and a colour rendering index of >90, the Holtkötter Supernova GT leaves nothing to be desired in terms of the light emitted. The lamp head, which can be rotated and swivelled in any direction, allows the light to be directed in any direction. The light rod of the Holtkötter Supernova GT can also be tilted by 15° - 60°. The touch dimmer with memory function on the base of the lamp allows the brightness to be continuously adjusted. When dimming, the light colour of the integrated LEDs changes to a warmer tone (from 2,850 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. If necessary, the LEDs can be replaced by the manufacturer. The Holtkötter Supernova GT is available in matt aluminium, anodised brass, platinum, white and black. In the anodised brass model, the luminaire rod is black; in all other models, the lamp rod and luminaire head have the same finish.
