## Description

The Lumina Moove pendant lamp convinces through technical refinement. This extremely innovative pendant lamp is very adaptable and it moves in three dimensions. Thus it is shiftable into every direction. This is a perfect solution for rooms where the connector for lamps is not located directly above the dining table or the coffee table as the Moove simply follows the table. The same is true of extendable tables as it will find the middle of the table without any problems while it is disposable to other areas of the room at the same time. The lampshade consists out of fabrics. Due to this design the diffuser enables a directly downwards radiating light as well as a diffuse illumination inside the room.
