Description

The Escale Stage ceiling lamp consists of a lamp body, to which are attached two, three or four spot elements. These spotlights can be separately rotated, so you can re-align the light again and again. Mosru Mohiuddin created the light made of polished aluminum in the year 2015.

Each spot element of Stage ceiling lamp carries in itself a LED with 6.5 watts and 610 lumens respectively. It is offered in a two-light, a three-light or a four-light version. In the 2-light version, the body is 40 cm long and 6 cm high. With an absolute projection of the ceiling spotlights this variant reaches a maximum of 16 cm.

The 3-light Stage ceiling lamp has a body with a length of 70 cm and 6 cm height. The maximum extension of the ceiling spot is just as high as in the other versions.

The 4-light Stage ceiling lamp has a body measuring 100 x 60 cm. All versions are on site dimmable.
