## Berenice Terra

### Oberfläche

- aluminium
- noir

### surface\_of\_reflector

- blanc
- laiton
- jaunir
- vert
- noir
- rose
- aluminium

## Technical details

<b>Pays de fabrication</b>	 Italie
<b>fabricant</b>	Luceplan
<b>concepteur</b>	Alberto Meda, Paolo Rizzatto
<b>année</b>	1985
<b>protection</b>	IP20
<b>Contenu de la livraison</b>	Leuchtmittel/Bulb
<b>aptitude de tension</b>	110 - 240 Volt
<b>matériel</b>	aluminium, nylon
<b>base/version</b>	GY6.35
<b>Transférabilité</b>	sur la tête de lampe
<b>Puissance (max. Watt)</b>	10 Watt
<b>longueur du bras</b>	80 + 30 cm
<b>Pied de lampe dimensions</b>	15 cm
<b>tête de luminaire masse</b>	10 cm
<b>répartition de la lumière</b>	directement

## Description

The Luceplan Berenice Terra floor lamp is equipped with two mobile light arms, which can be freely rotated and swiveled. This lamp is offered in different surfaces and with different reflector colours. The reflectors in yellow, sage green, rose or satin white are made of glass, the reflectors in aluminum, brass and black are made of metal. The light is emitted mainly directly, depending on where the light arm is rotated. Only a small portion of the light is directed into the room for the variants with glass reflector through the reflector.

There is an on / off switch on the light head. Since the current is directed through the lighting rods to the light head, no cable in the lighting rods are seen. The light can be operated with halogen lamps or LEDs. The lamp was designed in 1985 by Alberto Meda & Paolo Rizzatto.
