Description

The Ingo Maurer Wo-Tum-Bu is a floor lamp fabricated in complex handwork making each lamp unique. Ingo Maurer and his team got inspired by the Japanese sculptor Isamu Noguchi and then they created the lamp collection The MaMo Nouchies of which Wo-Tum-Bu is part. The lampshade is brought into its final shape evoking a cocoon by folding and pulling in several working processes. The Wo-Tum-Bu radiates a warm diffuse lighting. This lamp has a height of 190 cm or 120 cm. The larger lamp has an E27 socket and can be operated with halogen lamps or LEDs. The smaller lamp has an integrated LED. Both floor lamps can be continuously dimmed via a dimmer on the supply line.
