

Ingo Maurer

One From The Heart Spare - Transformer with Touch Tronic (until 2021)

Technical details

Pays de fabrication	 Allemagne
Fabricant	Ingo Maurer
Créateur	Ingo Maurer
aptitude de tension	230 - 240 Volt

Description

The offered replacement 12 Volt transformer is suitable for the Ingo Maurer lamp One From The Heart (model until 2021).

The replacement transformer with TouchTronic is not an original transformer from Ingo Maurer. It serves, just like the original, to regulate light and electricity. The transformer converts the current intensity and the TouchTronic switches and dims the light. (Including original plug)
