Description

The Luceplan Fortebraccio Spot 100 W has a swiveling lamp head that can be re-aligned again and again. For this purpose, a handle is attached to the head, on which also the on / off switch is located. From this series, this one is the larger of two wall lights. It can also be mounted on the ceiling. The light head has a diameter of 16 cm. With a projection of 36 cm, the lamp stands as much from the wall or ceiling as the smaller Fortebraccio Spot 60 W.

The Fortebraccio Spot 100 W spotlight is available in these surfaces: black soft-touch, metal and white. The Fortebraccio wall and ceiling light was created in 1998 by Paolo Rizzatto as well Alberta Meda.
