### Description

The Marset Soho 38 P LED is a floor lamp for outdoor use. It has a lamp shade made of polyethylene, which is produced by centrifugal casting. The shade emits direct light and is available in stone grey, black and white. The light rod is made of black lacquered metal. A diffuser made of white-opal methacrylate prevents glare from the light and ensures uniform light emission downwards. An LED is integrated as a light source. With protection class IP44, the Soho 38 P LED floor lamp is protected against splash water from any direction and against foreign bodies with a diameter of at least one millimetre.
