## Theia M

### Oberfläche

- noir
- blanc

### Technical details

<b>Pays de fabrication</b>	 Espagne
<b>fabricant</b>	Marset
<b>concepteur</b>	Mathias Hahn
<b>année</b>	2016
<b>protection</b>	IP20
<b>Contenu de la livraison</b>	LED
<b>aptitude de tension</b>	230 - 240 Volt
<b>matériel</b>	aluminium, métal, méthacrylate
<b>couleur de câble</b>	noir
<b>longueur de câble</b>	150 cm
<b>atténuation</b>	Touchez gradateurs sur la tete de lumière
<b>Puissance en Watt</b>	11,3 W
<b>LED</b>	y compris
<b>Indice de rendu des couleurs</b>	90
<b>Flux lumineux en lm</b>	1.019
<b>La température de couleur en Kelvin</b>	2.700 extra blanc chaud
<b>Diamètre de l'ombre</b>	32 cm
<b>Pied de lampe dimensions</b>	30 cm
<b>Dimensions</b>	H 44 cm

### Description

The Marset Theia M table lamp has a lamp shade consisting of two hemispheres. One hemisphere is made of lacquered metal and is white inside. It is fixed vertically, the other horizontally, so that they partly overlap. The horizontal hemisphere is made of thermoformed smoked glass methacrylate. An LED is integrated in the centre of the shade, which emits its light onto the white inside of the vertical hemisphere. From there, the light is reflected directly into the room without glare and also through the horizontal, transparent hemisphere. The table lamp can be turned around its own axis and readjusted at any time with a handle on the light rod: either to emit light as a reading lamp or to create indirect lighting. The vertically mounted hemisphere is available in white or black from the outside. The painted metal rod and base are also in the matching surface. The Theia M can be switched and dimmed by pressing a push button dimmer on the lamp head.
