

Vistosi

Bolle SP 35

Oberfläche

- transparent
- blanc

Version

- E27
- LED

Technical details

Pays de fabrication	 Italie
fabricant	Vistosi
concepteur	Barbara Maggiolo
année	2003
protection	IP20
Contenu de la livraison	Leuchtmittel/Bulb
aptitude de tension	110 - 240 Volt
Diamètre en cm	35
matériel	cristal verre, métal
longueur de câble	200 cm
réglage de la hauteur	hauteur déterminée
atténuation	dimmerable sur place
Dimensions	H 34 cm Ø 35 cm

Description

The Vistosi Bolle SP 35 pendant lamp has a lamp shade made of crystal glass. The characteristic texture of this series is created by the Balaton technique: air bubbles are enclosed in the glass during processing. The resulting effect multiplies the reflections on the surface of the sphere. This lamp emits the light into the room and also directly downwards.

The Bolle SP 35 is available in crystal transparent and white. The metal parts are satin nickel-plated. This pendant lamp is available in two versions: as an E27 or as an LED lamp. The E27 lamp can also be operated with LED retrofits. The LED lamp has an integrated LED with a colour temperature of 2,700 Kelvin warm white and can be dimmed on site with a trailing edge phase dimmer. On request, the LED lamp is also available with a colour temperature of 3,000 Kelvin warm white and 0-10 Volt dimmable. The cables can be shortened if necessary. With the three ceiling hooks supplied, the pendant lamp can also be mounted independently of the power outlet.
