Description

The Arturo Alvarez Mytilus MY06 is a wall lamp with a shade made of lacquered stainless steel-mesh. This material is particularly durable and is shaped and finished by hand for the lamp. The lamp is 43 cm high and 60 cm wide. Its depth is 16 cm. A spherical glass diffuser ensures uniform glare control and light distribution in all directions. The integrated LED has a colour temperature of 2,700 Kelvin extra warm white. The Mytilus MY06 is on site dimmable with a trailing edge phase dimmer. On request, the lamp is also available with a colour temperature of 3,000 Kelvin warm white. A DALI dimmable version is also available on request.
