Description

The Cini & Nils Incontro can be mounted on the wall or ceiling. The illuminant is integrated so that it is never visible and the light is only emitted indirectly. Therefore the lamp can be mounted on the ceiling or wall at any height or orientation. The lamp itself is illuminated and a part of the light is reflected into the room. In addition, the wall or ceiling around the lamp is also illuminated. This wall and ceiling lamp is available in white, gold matt and silver matt. The Incontro is offered in two versions: non-dimmable and dimmable on site with a trailing edge phase dimmer. The dimmable version can also be regulated with an optional Casambi module via Bluetooth using a smartphone/tablet. This wall and ceiling light always has an integrated LED with a colour temperature of 2,800 Kelvin warm white as the light source.
