Acqua with double canopy

Oberfläche

- or
- argent
- blanc

Version

- Downlight
- Uplight

Technical details

Pays de fabrication	 Italie
fabricant	Cini & Nils
concepteur	Luta Bettonica
année	2014
protection	IP20
Contenu de la livraison	LED
aptitude de tension	230 - 240 Volt
matériel	acier, aluminium
réglage de la hauteur	hauteur déterminée
atténuation	avec gradateur integre commande par un interrupteur
LED	y compris
Indice de rendu des couleurs	95
La température de couleur en Kelvin	2.800 blanc chaud
canopée Dimensions	Longueur 33 cm, largeur 11 cm, hauteur 5 cm
Les performances du système	5 x 5,6 Watt
Flux lumineux total en LM	3.250
hauteur totale	200 cm
Dimensions	H 86 cm

Description

This Cini & Nils Acqua consists of two multiple lamps suspended next to each other on a canopy. A total of five lighting elements are integrated. The lamp is available in the surfaces white, silver matt and gold matt. On request it is also offered in silver leaf or gold leaf. The oval canopy is supplied in the matching surface to the lamp. The Acqua is offered in two versions: As an uplight it emits indirect light directed upwards and as a downlight it emits direct light directed downwards.

The pendant light with multiple canopy is operated with a switch-controlled, integrated dimmer, with which the light can be dimmed continuously via the normal light switch. No additional cables are required for this. The dimming function is activated by switching on and off once. The maximum light intensity is reached within seven seconds. To set the desired light intensity, switch on and off again. The set light intensity is saved via a memory function and automatically selected again when the light is switched on again. On request, the Acqua with double canopy is also available on site dimmable with Push.

This light has a total of five individual Acqua elements. On request, the pendant lamp is also available with up to ten elements. The pendant light has a maximum height of 200 cm, the cables can be shortened if required. A decentralisation kit is offered as an accessory, which allows the lamp to be installed independently of the power supply.
