Description

The Serien Lighting Reflex2 Floor M has a height of 195 cm. It has a width and length of 30 cm. The floor lamp is available with a black or white coated surface. The floor lamp is regulated via a push button dimmer at the lamp base. With the **Tunable White technology**, the light can also be controlled via this push button dimmer from incandescent warm to cool white. This allows the colour temperature to be adjusted from 2,200 Kelvin extra warm white to 4,000 Kelvin white. If necessary, the cable can be wound up under the lamp base.
