## **Description**

The Grupa Baluna Wall Medium is a wall lamp with a 135 degree swivelling arm. The lamp arm has a projection of 51.5 cm. The glass shade can be rotated 360 degrees around its own axis. It is made of triple-coated, mouth-blown opal glass and has a diameter of 19.7 cm. A dimmer at the lamp head is integrated.

The arm and the wall bracket of the Baluna wall lamp are made of black, powder-coated steel. They are finished and assembled by hand. On request, the wall lamp is also available in other finishes. The supply cable can be removed if required for mounting on a wall connection. In addition to the Baluna Wall Medium, a wall lamp with an extendable arm is also available.
