35 + 35 cm

Description

The Grupa Arigato Ceiling is a ceiling lamp with an adjustable jointed arm which can be rotated and swivelled as desired. This is the smaller of two ceiling lights with a jointed arm. The jointed arm consists of two parts, each 35 cm long. The lamp has an aluminum lamp shade that can be rotated by 360 degrees and swivelled by 125 degrees. The ceiling light is mounted directly on the ceiling. A diffuser at the bottom of the lamp shade ensures a glare-free light distribution downwards. The Arigato Ceiling is offered in the surfaces black or white matt powder-coated. The lamp is available in other finishes on request. Halogen lamps or LED retrofits are suitable for the E27 socket. From the series, Grupa also offers ceiling lights with two jointed arms. In addition, the Arigato Ceiling Long is also available with a longer jointed arm.
