Description

The Grupa Igram Lamp and Table of a table with integrated floor lamp. The table has legs made of metal and a table top with a diameter of 40.5 cm. The floor lamp has a horizontal lamp arm that can be swivelled by 180 degrees. Its lamp head can be rotated by 180 degrees. The lamp is dimmed and switched via a touch dimmer at the end of the horizontal lamp arm. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as illuminant. A diffuser made of opal polymethyl methacrylate reduces the glare of the emitted light. The Igram floor lamp is made of black, matt powder-coated steel and has an overall height of 127 cm.

The table top is available in these versions: in tempered glass in beige, grey, red, in glazed ceramic in black or white and in oak wood in black. When ordering, please specify the desired table top under the item Order Review in the field Order Comment. On request, the table is also available with a tempered glass top in the colours yellow, blue and green. Each table top is made and finished by hand. Tempered glass is particularly shock and impact resistant.
