Description

The table lamp Bobby in the current retro look impresses with a clear design language with puristic claim. The lamp body made of beech wood is surrounded by a white lampshade made of Lunopal. Lunopal is a high-quality shade material developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The completely environmentally friendly material is UV-resistant and does not yellow. The lampshade of the Domus Bobby table lamp has a diameter of 14 cm. The total height of the lamp is 21 cm, on the supply line there is an on/off switch. The table lamp has an E27 socket and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
