### Description

The Betec Acus Office has a lamp rod that can be tilted as desired which can be locked in any position with two toggle levers. Its lamp head can be rotated by 140 degrees and completely tilted from the horizontal to the vertical position. The table lamp has a total length of 130 cm and a maximum height of 80 cm, depending on the adjustment. The table clamp was elaborately developed and patented by Betec. It is suitable for tables with a maximum thickness of 3.5 cm. With the table clamp, the lamp can be fixed in a new place at any time, if necessary. An on/off switch is integrated in the lamp head. All components of the clamp lamp are made of brass in a German manufactory using traditional craftsmanship and have a glossy chrome finish. The Acus Office is operated with an integrated LED that has a colour temperature of 3,000 Kelvin warm white and which is characterised by very good colour rendering with a particularly high colour rendering index of Ra >92.
