Description

The successful combination of high-quality materials and uncomplicated design allows this lamp to be used in project, office and private areas. The high-intensity LED wall and ceiling luminaire, whose ring-shaped lampshade seems to float due to a thumb-width distance to the mounting surface, also provides wall or ceiling illumination thanks to its open construction. The diffuser, which is deliberately placed high, makes the material used inside directly tangible and ensures an optimal diffusion of the light. The LARAFelt wall and ceiling lamp by the German manufacturer Domus has a diameter of 32 cm and is 12.5 cm high. This dimmable lamp is equipped with an LED module with a power of 13 watts and a luminous flux of 1600 lumens. The light of the integrated LED is characterised by a very good colour rendering with a high colour rendering index of $R_a > 92$. The ring-shaped lampshade of the Domus LARAFelt is covered with grey wool felt. This lamp is available in the inner shade colours wool white, orange and curry. On request, the wall and ceiling lamp is also available with a shade in red felt (shade inside colour wool white) or indigo coloured felt (shade inside colour cinnamon).
