Description

The B.Lux Speers W 1L is a wall lamp with a swivelling lamp head for direct, pointable lighting. The light emitted creates a cone of light on the wall. In addition to this wall lamp with direct lighting, the Speers W 2L is also offered from the series, which in addition to direct light, also emits indirect light onto the wall around the wall mounting with a second light source.

The Speers W 1L wall lamp has a lamp head with a diameter of 11 cm and a length of 11.5 cm. The lamp has a maximum projection of 18 cm. The wall mounting is 13 cm wide and 13.5 cm high. An LED is integrated as illuminant. The emitted light is focused by a glass lens, which increases the lighting efficiency. The Speers W 1L wall lamp is offered in the surfaces white and black. Both surfaces are matt textured. The lamp head of the white lamp is satin brass on the inside, the head of the black lamp is satin copper on the inside.
