#### Description

The Domus LARAfelt Pendant Lamp S graphite distributes its light glare-free and homogeneously mainly downwards. The light is largely dimmed upwards. The lamp shade has a diameter of 20 cm and is 8 cm high. The pendant lamp can be individually set in its total height during installation.

The ring-shaped lamp shade of the LARAfelt Pendant Lamp S is covered with graphite wool felt. The shade is wool white on the inside. The view into the inside of the lamp is particularly beautiful, where the wool felt is shown to advantage by the low diffuser. The LARAfelt series also includes pendant lamps with a lamp shade in grey felt (different shade inside colours available) or red felt (shade inside colour wool white).

The LARAfelt Pendant Lamp S is operated with a dimmable, power-efficient LED that has a colour temperature of 2,700 Kelvin extra warm white. The integrated LED is characterised by very good colour rendering with a high colour rendering index of Ra > 92. The pendant light is also available with a diameter of 43 cm or 55 cm.
