### Description

The Licht im Raum Ocular 800 LED pendant lamp has a diameter of 80 cm. The lamp can be individually set in total height during assembly. Its six lenses, each with a diameter of 67 mm, can be swivelled. The Ocular lenses focus and control the light in a precise, glare-free manner, creating a superior quality of light. Six long-life LEDs distribute their light downwards in a focused and homogeneous manner. Three further LEDs emit their light upwards.

The Ocular 800 LED is available in the surfaces brushed stainless steel, hand-polished stainless steel, matt black, white, natural brass and black / gold. The pendant lamp can be regulated via a rotary dimmer integrated in the lamp.
