### Description

The Licht im Raum Ocular 1000 LED Series 100 is a pendant lamp with a diameter of 100 cm. During installation, it is possible to suspend the lamp in total height. The pendant lamp has six swivelling lenses, each with a diameter of 100 mm. The Ocular lenses focus and control the light in a precise, glare-free manner, creating a superior quality of light. Six long-life and powerful LEDs emit their light downwards through the lenses in a focused and homogenous manner. Three further LEDs direct their light upwards.

The Ocular Ocular 1000 LED Series 100 is available in the surfaces brushed stainless steel, hand-polished stainless steel, matt black, white, natural brass and black / gold. The pendant lamp can be regulated via a rotary dimmer integrated in the lamp.
