### Description

The Licht im Raum Ocular Square 710 LED is a pendant lamp with a square basic shape. It has a length and width of 71 cm each. Its eight lenses can be swivelled within the lamp. The light is emitted homogenously and focussed downwards through the eight lenses. The lenses each have a diameter of 67 mm. The Ocular lenses focus and control the light in a precise, glare-free manner, creating superior light quality. The lamp can be regulated via a rotary dimmer on the lamp.

The Licht im Raum Ocular Square 710 LED is offered in the surfaces brushed stainless steel, hand-polished stainless steel, matt black, white, natural brass and black / gold. The pendant lamp can be individually suspended in total height during installation.
