### Description

The Licht im Raum Ocular Spot 1 Zoom semi-recessed round is a wall / ceiling spotlight with a swivel lens. The glass lens has a diameter of 67 mm and can be zoomed in or out. This allows the beam angle to be changed between 30 and 60 degrees. The Ocular lenses focus and control the light in a precise, glare-free manner, creating superior light quality.

The Spot 1 Zoom semi-recessed round has a swivel and tilt joint with which the lamp head can be aligned as desired. The lamp is made of stainless steel and is available with a matt nickel or polished finish. The round recessed socket of the lamp can be installed in the wall or ceiling.
