

Catellani & Smith Ettorino Clamp

Oberfläche

- noir
- multicolore
- blanc

Technical details

Pays de fabrication	Italie
fabricant	Catellani & Smith
concepteur	Enzo Catellani
année	2022
protection	IP20
Contenu de la livraison	LED
aptitude de tension	110 - 240 Volt
Projection en cm	73
matériel	aluminium, Fer, laiton
atténuation	gradateur cordon avec
Puissance en Watt	10 W
LED	y compris
Indice de rendu des couleurs	80
Flux lumineux en lm	1.440
La température de couleur en Kelvin	2.700 extra blanc chaud
remplacement des ampoules :	sur le site même
Dimensions	H 28 - 90 cm

Description

The Catellani & Smith Ettorino Clamp can be clamped to tables, shelves etc. and can also be attached to a new location if required. The Ettorino clamp lamp can be directed flexibly. The lamp arm can be tilted and swivelled. The lamp head can also be rotated and tilted. In addition, the clamp light can be rotated 350 degrees around its own axis via a joint on the lamp base. Depending on how the lamp is aligned, the lamp head has a height of between 28 cm and 90 cm. A patented process ensures that the lamp remains stable in any selected position.

The Ettorino Clamp is suitable for tables with a thickness of up to 5.5 cm. The clamp lamp is available in the surfaces white, black and multicoloured. A small, red, human figure adorns the arm of the lamp as a design element. The clamp lamp is regulated via a dimmer on the supply line. The lamp is operated with an integrated LED with a colour temperature of 2,700 Kelvin extra warm white.
