

Holtkötter

Supernova P

Oberfläche

- aluminium
- laiton
- platine
- noir

Technical details

Pays de fabrication	 Allemagne
Fabricant	Holtkötter
Créateur	Holtkötter
année	2019
Puissance en watts	1 x 31 + 1 x 33 W
Indice de rendu des couleurs (IRC / Ra)	>90
Flux lumineux en lm	7250
Température de couleur en kelvins	2.700 - 3.100
Indice de protection / Indice IP	IP20
Contenu de la livraison	LED
aptitude de tension	230 - 240 Volt
matériel	métal
réglage de la hauteur	réglable en hauteur
atténuation	Touchez Dimmer sur le luminaire
LED	y compris
canopée Dimensions	38 cm
tête de luminaire masse	42 cm
remplacement des ampoules :	sur le site meme
hauteur totale	45 - 160 cm

Description

The Holtkötter Supernova P is a flexibly adjustable pendant light. It consists of an outer ring and an inner disc that can be adjusted in different ways. The outer ring emits its light downwards, but can also be set at an angle. The inner disc can be rotated through almost 360 degrees independently of the ring and can therefore distribute its light downwards, upwards or to the side. The LEDs on the ring and disc can be switched separately and dimmed continuously. The two touch dimmers are integrated on the ring. When dimmed, the light colour of the integrated LEDs changes to a warmer tone (from 3,100 Kelvin warm white to 2,700 Kelvin extra warm white) thanks to dim-to-warm technology. If necessary, the LEDs can be replaced by the manufacturer.

The overall height of the Supernova P from German manufacturer Holtkötter can be adjusted from 45 cm to 160 cm by simply pushing it up and pulling it down. It can also be mounted on a sloping roof. Thanks to a roll-up mechanism, excess cable disappears into the canopy and the lamp always remains horizontal at the desired height. Special lengths for the lamp are also available on request. The pendant light is available in matt aluminium, anodised brass, platinum and black.
