

Holtkoetter

Janus H

Struktur

- zwart
- aluminium
- zwart / messing

Technical details

Land van herkomst	 Duitsland
Fabrikant	Holtkoetter
Ontwerper	Holtkötter
jaar	2024
Materiaal	Metall
hoogteverstelling	in hoogte verstelbaar
Dimbaarheid	faseafsnijding dimmer
Vermogen in watt	2 x 18 W
LED #	inclusief
Kleurweergave-index (CRI / Ra)	>90
Lichtstroom in lm	5400
Kleurtemperatuur in kelvin	2.200 - 2.850
Beschermingsklasse / IP-bescherming	IP20
Leveringsomvang	LED
voltage geschiktheid	230 - 240 Volt
lampkop massa	18 cm
bulb vervangen:	ter plaatse zelf
Dimensions	H 99 - 155 cm

Omschrijving

The Holtkötter Janus H ceiling lamp has height-adjustable telescopic arms attached to the side of a rectangular ceiling canopy, which can be swivelled by up to 160° using joints. These swivelling telescopic arms make it easy to illuminate even large tables. The lamp heads, which can be continuously rotated and swivelled in all directions and contain a replaceable LED panel, allow the light to be individually directed. When dimmed, the light colour of the integrated LED changes to a warmer tone (from 2,850 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. With a light output of 5,400 lumens and a colour rendering index of over 90, the Holtkötter Janus H provides powerful light that can be emitted directly or indirectly as required. The Janus H ceiling lamp is height-adjustable from 99 cm to 155 cm by extending or retracting the telescopic arm. The ceiling canopy is 33 cm long, 6.2 cm wide and 3.6 cm high. The Janus H is available in the following surface textures: matt aluminium, black/brass anodised and black.
