### Omschrijving

The K-Meral CECIL pendant lamp is offered in one-to-four lights - here with the design element "TIWI" as decor above the lampshade. Each lampshade of the CECIL lamps consists of porcelain. The circular canopy of the single-lamp light and the elongated ceiling housings of the multi-flames lamps are made of ground aluminum and have integrated transformers.

All pendant lamps of this series are dimmable on site. By simply pushing the coaxial cable into the ceiling housing, the lamps can be individually adjusted in height. The lampshades should remind of tulips: natural and clear the shape - soft, wide and warm the light cone. They emit a direct, neutral light on the surface to be illuminated and a warm diffuse light in the surrounding area. Supplied with 35 watt lamps.

The CECIL lights are offered here with "TIWI", a beautiful accessory above the lamp shade, which gives the light a very special look. "TIWI" is made of aluminum and is cast in one piece in a complex process, then ground by hand and at last worked for days in a drum to obtain the perfect abrasion. TIWI is a loving detail that emphasizes the uniqueness of the series of lamps thanks to its flame shape.
