Flo Grommet F46

Oberfläche

- Bronze Metallic
- geel
- gunmetal
- geborsteld nikkel
- rood
- zwart
- wit

Technical details

Land van herkomst	 Italië
Fabrikant	Lumina
Ontwerper	Foster+Partners
Beschermingsklasse / IP-bescherming	IP20
Leveringsomvang	LED
voltage geschiktheid	110 - 240 Volt
Projectie in cm	39
materiaal	aluminium, staal
dimmen	2-step dimmer
Wattage	6 W
LED	inclusief
Kleurweergave-index	>90
Lichtstroom in lm	500
Kleurtemperatuur in Kelvin	2.700 extra warm wit
lichtverdeling	direct
Dimensions	H 43 cm

Omschrijving

The Lumina Flo Grommet F46 is one out of two Flo table lamps thought to be directly embedded into the table plate to save space. Please note that this lamp is suitable for mounting it into tables with a maximum plate thickness of between 10-13 mm. The drilling has a diameter of 4.6 cm. The Flo family is the result of the first cooperation of Lumina and Foster & Partners. The design is minimalist and timeless integrating fine details into a slim shape. The idea was to create a functional reading light embedding the latest LED technology into a simple floating shape. The modern elegance of the Lumina Flo Grommet F46 is achieved not only through the sophisticated shaping but also through the omission of external mobile parts like coils or springs.

The Flo Grommet F46 is made of aluminium and steel offered in a variety of surfaces and colours. This light is controlled via the switch attached to the lamp head. This switch offers three positions being: Off, 100% light intensity and 50% light intensity. One 6 watt LED with 2.700 Kelvin and is integrated into this lamp. On request you can order this lamp also with a colour temperature of 3.000 Kelvin. If you like to order this article, please specify the Kelvin colour temperature of the lamp under the item Order Review in the field Order Comment.
