Omschrijving

The Foscarini Havana Outdoor Terra is a lamp for outdoor use. The white diffuser is made of polyethylene. This creates a beautiful, diffuse light distribution. Three mounting options are available for the Havana Outdoor Terra: a spike for drilling the lamp into the ground, a floor assembly that is recessed into the ground or a base for flexible adjustment.

The Havana Terra for outdoor use is also available in two sizes: Havana Outdoor with a height of 170 cm and Havana Outdoor Bassa with a height of 143 cm. Depending on the connection option, the floor lamp has a protection class of IP44 (with plug connected) or IP65 (with clamp). With protection class IP44, it is protected against solid foreign bodies with a diameter of at least 1 mm and against splash water on all sides. With IP65, the lamp is dust-tight and protected against water jets from any angle.
