### Omschrijving

The Byok Nastrino Table Stand is a table lamp, characterised by its functionality. It has two arms connected to a flexible joint, allowing the upper arm to move freely up and down. Two LEDs are integrated in the upper arm, which can be dimmed with gesture control. During dimming, the light takes on a warmer colour thanks to the Dim2Warm technology, changing the light colour of the LEDs from 2,700 Kelvin extra warm white to 2,100 Kelvin warm white. The lamp consists of simple ground aluminium profiles. The table base itself is not rotatable, as Nastrino Rotating Base also an lamp from this series is offered with rotating base. The different surfaces aluminum matt and black matt are available. Byok offers this lamp also with a table clamp, an USM-adapter, a wall fix and a rotating base as well.
