Omschrijving

The Foscarini Chouchin Reverse 2 is one of the three Chouchin lights which designed the designer Ionna Vautrin 2015 as a remake of the old Chouchin. The white, elongated diffuser consists of blown glass painted, has below an green ring and the light shines directly down from it. The supplied cable and the corresponding rope suspension can help to a maximum suspension of 340 cm of light. In deeper areas, the cable can be shortened as required. This lamp has an included exchangeable LED retrofit light source.
