Omschrijving

The Glasnost Glass classic mailbox is one of Keilbach's design classics and stands for openness and transparency. It is produced in Germany from brushed stainless steel and satinised safety glass and is available in two widths: 42 cm and 36 cm. The design is rather simple and elegant and the letterbox is understood as an architectural element that does not want to be more important than the architecture itself.

Keilbach attaches great importance to high-quality materials, careful workmanship, timeless design and long life expectancy. This high-quality processing shows up for example by the installation of 2 damping elements. Thus the flap closes slowly and quietly. The Glasnost Glas Klassik mailboxes can be personalised by labelling or creating logos. If you are interested in a lettering or a logo, please contact us. Matching the Glasnost Glas Klassik mailbox series, Keilbach also offers newspaper boxes, displays and tripods for assembly.
