dimmen	geïntegreerde Druknop dimmer
schakelbaarheid	twee fasen tuimelschakelaar
Wattage	9 W
LED	inclusief
Kleurweergave-index	97
Lichtstroom in lm	775
Kleurtemperatuur in Kelvin	2.700 extra warm wit
lichtverdeling	direct
Dimensions	H 91 cm

Omschrijving

The Lumina Daphine Terra LED is a floor lamp making up a perfect combination of sophisticated elegance and practical functionality. It is the new version of the Lumina Daphine and is equipped with the latest technique.

The metal bars of the light body are rotatable and swivelling. The lamp head of the Daphine is rotatable at up to 360° making the lamp extremely flexible in its fields of application. A magnetic key supplied can be used at the base of the lamp to switch between an on/off switch and a dimmer. The on/off switch has the following levels: On, half light and off. With the dimmer the light intensity is dimmed infinitely by longer pressing. The Lumina Daphine Terra LED is offered in black soft-touch, matt white, red, yellow, metallic bronze and nickel plated. These different colours are a real eye-catcher. A LED Bulb with 2.700 Kelvin is integrated. On request this lamp is also available with a colour temperature of 3.000 Kelvin. If you like to order this article, please specify the colour temperature under the item Order Review in the field Order Comment.
